

INSPIREUS

# VIRTUAL STEM SERIES

**MIDDLE SCHOOL STUDENTS**  
**EVERY SATURDAY FROM APRIL 24 – JUNE 12**

INSPIREus is hosting a free STEM series to introduce middle school students to the exciting world of STEM! Join us for a 30–45 minute interactive Zoom session every Saturday from April 24th to June 12th to learn about the science behind cake, see how AI lets Google guess what you're about to draw, discover the field of Biomedical Engineering, and much more! Head over to the event webpage to explore the rest of the sessions and sign up for any that interest you!

## SESSIONS

- 4/24 Engineering Design Challenge: Build a Bridge
- 5/1 Solve a Health Problem with Bioengineering
- 5/8 AI: How Machines Read Your Mind
- 5/15 Tackling Today's Environmental Issues
- 5/22 A Look Into our Genetics
- 5/29 How Evolution Shaped our World
- 6/5 How is Origami Related to STEM?
- 6/12 Food Chemistry: The Science Behind Cake
